

Gateway

GWY-01

Gateway connects the user's Plejd mesh with the Internet, allowing control of the Plejd system regardless of where the user is situated.

- Enables remote control.
- Maintains time functions in the event of power outages.
- Enables vacation mode.
- Connects via power adapter to wall sockets and via Ethernet to a local network.
- Becomes part of the existing mesh network when installed in the Plejd app.
- Enables integration with third-party systems, such as Google Home, Apple HomeKit® and Homey.

Google Assistant is not available in certain languages and countries. Google and Google Home are trademarks of Google LLC. Apple, HomeKit, App Store are trademarks of Apple Inc. registered in the U.S. and other countries.
